Attn: Mrs. Elson Turner

Dear Madam and Gentlemen:

We have had no reply to our letters, dated August 9, 1966 and January 18, 1967, inquiring as to whether or not Sheridan Township wishes to take advantage of a cooperative venture in the use and financial support of a Refuse Disposal Site. As you are aware, the site operation cost has been shared by Albion Township, Farm Township and the City of Albion on a prorata basis with the expectation that Sheridan Township would participate in the cost of the operation. The city financed the cost from approximately May 1 until September 1, 1966. It previously supplied dumping privileges for the entire area without charge, even though substantial costs were involved for an attendant and covering the refuse. Sheridan Township's prorata share for the cost of the operation for a 6 months period beginning Oct. 1, 1966 through March 31, 1967 is \$520.00.

Mr. Stevick reported that he was not able to operate the site on \$15,000 a year. The city, after a study of his figures and after making a comparison with another community's cost, granted him a \$3,000.00 a year increase effective March 1, 1967. Sheridan Township's prorata share, under the \$18,000 per year contract, would be \$312.00 per quarter beginning April 1, 1967.

We would appreciate hearing from you at your earliest convenience as to whether you wish to participate in this venture.

Sincerely yours,

A. F. Glassford
